

OSTOFORM

CREST Moldable Barrier

**Premium
Hydrocolloid**

**Tapered Edges
for a
Smooth Finish**

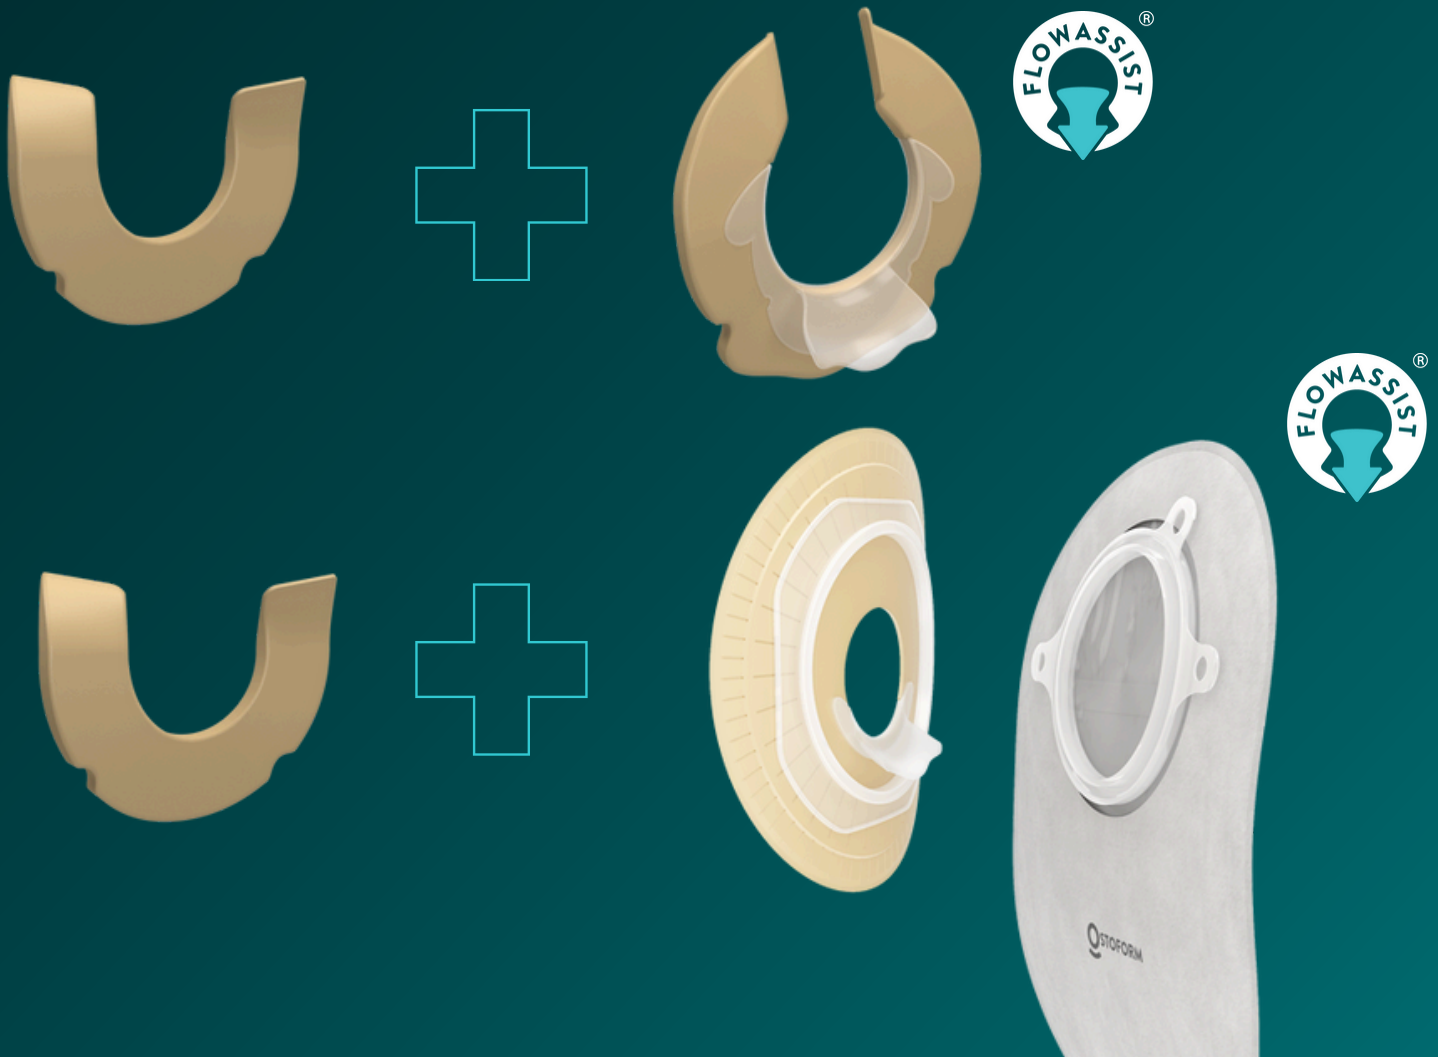

**Flex Notches for
Superior Flexibility**

Designed to Deliver an Ideal Fit for Challenging Stomas

- **Designed for Uniquely Shaped Stomas:** Helps close the FLOWASSIST Seal for irregular stoma shapes.
- **Ideal for Loop Ileostomies:** Can be used as two rings to support figure eight stomas.
- **Supports Uneven Skin Surfaces:** Perfect for addressing dips or irregular skin contours.
- **Half Convexity for Versatility:** A unique feature that enables convexity on one side while keeping the other flat.
- **Perfect for Large or Post-Op Stomas:** Works seamlessly with the FLOWASSIST Seal to provide a secure fit for larger or post-op stomas.

Use as a Packing Agent with **FLOWASSIST** Products and Similar Systems

Effective as a Half Seal for Uneven
Skin Contours
